RAVI KUMAR

BACKEND DEVELOPER

SUMMARY

Dedicated Backend Developer with a solid foundation in HTML5, CSS3, Bootstrap, JavaScript, Ajax, PHP,Web services(REST API) and Laravel. I am passionate about building efficient, scalable, and robust websites. My skill in creating dynamic websites and applications enables me to deliver high-quality solutions that meet user needs.

Strong understanding of front-end technologies like HTML5, CSS3, and Bootstrap allowing me to collaborate effectively with front-end developers.

EDUCATION

Bachelor of Computer Application   **2021-2024**
Mohan Lal Sukhadia University, Udaipur

12th   **2020**
G.S.S.S. Sonela (RBSE)

10th   **2018**
G.S.S.S. Sonela (RBSE)

PROJECT

Dance Master
- Developed a responsive, visually appealing dance class website template using HTML5, CSS3, Bootstrap and Media Query.
- Utilized media queries to ensure mobile-first design, making the website fully responsive across different screen sizes and devices.
- Deployed the website on Netlify, optimizing for fast loading times and smooth navigation.
- Visit: https://rkdance13.netlify.app/

Photography Portfolio
- Developed a visually engaging photography portfolio website to showcase high-quality images.
- Designed and developed a static photography website to showcase photography skills.
- Highlighted key photography works and portfolio details to engage visitors effectively.
- Visit: https://rkphotography09.netlify.app/

Food Track
- Developing a web-based food delivery system for passengers in trains, enabling them to order food from multiple restaurants across different stations.
- Allowing restaurants at each station to list and manage their food items through an easy-to-use interface.
- Created user-friendly interfaces for customers to place orders, and track delivery status efficiently.
- Implemented features like station-based restaurant filtering, menu browsing, and order management to streamline the ordering process for users.
- Developed the backend logic for handling restaurant, station, and order data efficiently while ensuring smooth database interactions.

Gift Shop

- Developing a web application for a gift shop using the Laravel framework, focusing on robust validation and secure authentication mechanisms.
- Implemented key user management features including sign-up, login, and password recovery with forget/reset password functionality.
- Implemented RESTful APIs to enable seamless integration with external platforms and facilitate data exchange for operations like product management, user authentication, and order handling.
- Integrated welcome email functionality to enhance user engagement during account creation.
- Applied proper validation techniques to ensure data integrity and prevent unauthorized access.

TECHNICAL SKILLS

- HTML5
- Bootstrap
- JavaScript,Ajax
- SQL
- REST API
- Laravel
- CSS3
- Media Query
- Core PHP
- MySQL
- Advance PHP
- MVC PHP

NON-TECHNICAL SKILLS

- Problem Solving
- Time Management
- Adaptability
- Active Listening
- Self Motivation
- Honest and Hardworking

LANGUAGE KNOWN

- Hindi
- English
